Hope all going well.
NY is asking if you can
accommodate 2 small fish
with no relationship tree,
just need finan.
Meanwhile we can give up
2 reports of the fish you
received yesterday, to
keep 30 reports of this
month.
Thank you.

In order to pull expertly, we cannot be distracted with switches. It triggers all sorts of electronic issues. Teams are already dispatched and beginning their trip.

Good morning ~ For planning purposes, is he suggesting the invitation is just for me or both?

I will look at my calendar for this week and get back to you. Please thank ny for his kind invitation.

Good morning - actually all is going well even though we were delayed by the issue for the first 8 days. We can come up on Friday for lunch if that works for ny? We have some new exotic fish options to discuss, too.

Good morning,

No worries at all, totally
understood about the
food, I'll let the captain
and chef know. They won't
mind, as they usually treat
guest with their way of
hometown, but they of
course love to respect
guests' choice.

So we understand you will

No - we expect to have results the following week due to the problems about putting multiple fish in late, as I said earlier to you - but we have additional info that we will discuss Privately with him.
Again, please thank Capt for the invitation and we look forward to seeing him

Checked with the Capt, then he suggested to meet next week to review the weekly result together with you, plus the Private part.

With no offense, we just want to make the meeting be more productive, and enjoy the food as well. Sorry for inconvenience, hope you and M could possibly make it next week.

Thank you.

Conveyed to him. He advised that if you could make it, he needs to see the report before Jan 25, as he has some plan from Jan 26 which will need your input.
In this case, he advised that he can be available on this Friday in his place, or alternatively meet you in Miami next week before Jan 25.
Please kindly advise.
Thank you. 🙏
